Arya Krishnan

University of Massachusetts Amherst, MA 01002

aryakrishnan2108@gmail.com | Linkedin | Website/Portfolio

Software engineer with 3.5 years of engineering experience, including internships, across Google, Rubrik, and Flipkart. Experienced in infrastructure and networking, building reliable, scalable distributed services and production systems in cloud-native environments. Build and use AI-assisted tooling in day-to-day engineering workflows, including Gemini and Claude Code.

Education

Aug 2025 – May 2027	M.S. in Computer Science University of Massachusetts Amherst **GPA: 3.95/4.00**
Aug 2017 – Jun 2022	B.Tech + M.Tech (Dual Degree) in Information Technology **(Cybersecurity)** Indian Institute of Information Technology, Allahabad (IIIT-A) **CGPA: 9.53/10.0, Bronze Medalist, 3rd out of 100**

Professional Experience

Rubrik, **Software Engineer Intern** *May 2026 – Aug 2026, Palo Alto, CA*

- Standardized **infrastructure dependencies, resources, and runtime configuration** across ∼200 distributed services in Rubrik Security Cloud.
- Built **AI-assisted platform tooling with Claude Code** for service analysis, code generation, validation, and migration.
- *Technologies:* Go, Python, Kubernetes, gRPC, Bazel, GCP, Claude Code.

Google, **Software Engineer** *Jul 2024 – Aug 2025, Bengaluru, India*

- Built and operated **production networking infrastructure** for Google Distributed Cloud Hosted, an air-gapped private cloud, using Kubernetes, Cilium/eBPF, BGP, ClusterMesh, VXLAN, VRFs, and IP tunneling.
- Debugged platform-wide production incidents involving **routing, MTU mismatches, pod IP exhaustion, DNS, TLS, and service reachability**, using Cilium/Hubble and system-level signals during on-call.
- Built an **SLO/observability framework** for control-plane and dataplane latency and availability, supporting **99.5%+ reliability**.
- Used **Gemini and Gemini Gems** in day-to-day engineering workflows for coding, debugging, codebase exploration, and reusable task-specific workflows.
- *Technologies:* Go, Python, Kubernetes, GKE, Cilium, eBPF, BGP, Hubble, Grafana, GCP, Gemini.

Flipkart (Walmart Group), **Intern → SDE-1 → SDE-2** *Jan 2022 – Jul 2024, Bengaluru, India*

- Built **CDC streaming pipelines** (SQL Server → Debezium → Pub/Sub → Dataflow → BigQuery/Looker).
- Designed and owned **marketplace catalog microservices** from architecture through production, supporting **2x growth in sellers and serviceable areas**, built Java/Node.js backend and Elasticsearch-powered search services deployed with Docker/Kubernetes on GCP and AWS.
- *Technologies:* Java, GCP, GKE, gRPC, Kafka, BigQuery, Pub/Sub, Dataflow, Debezium, Terraform, MySQL, Elasticsearch.

Academic Projects

- **ML Systems & Research:** Hierarchical Federated Learning for secure collaboration; robotic grasp detection through representation learning, accepted at **SPCOM 2020**, with a poster accepted at **WiCV @ CVPR 2020**.

Skills

Languages	Go, Python, Java, JavaScript (Node.js), C/C++, SQL
Cloud & Infra	Kubernetes, GKE, Linux, GCP, AWS, Terraform, Bazel, CI/CD
Networking	Cilium, eBPF, BGP, gRPC, Multi-cluster Networking
Data Systems	Pub/Sub, Dataflow, BigQuery, Debezium, MySQL, Elasticsearch

Relevant Coursework

- Secure Distributed Systems, Distributed Systems, Advanced Information Assurance, Systems for Data Science **(Spark/Hadoop, ML Infra)**, Systems for Deep Learning, Databases.
